Research Description

Since 1993, we have utilized a disciplined approach to provide investment recommendations on equity allocation across countries, sectors and industries. Recognizing the importance of top-down global equity allocation for international portfolio performance, we provide clients with timely research and investment recommendations. Our award-winning research is utilized by premier institutional asset managers, including long-only equity managers, global asset allocators, and funds of funds.

Our team is comprised of experts focused on country, sector and industry allocation globally. We also offer interactive allocation software that allows clients to create customized models to inform their investment processes.

Research Products

Country Allocation Publications

All country allocation publications make actionable recommendations based on time-tested models incorporating a group of proprietary valuation, growth, risk, and momentum/sentiment investment indicators.

- The **All-Country Equity Allocator** provides country allocation recommendations with the goal of enhancing the returns of All-Country equity portfolios, including both developed and emerging markets.
- The **Global Investment Outlook** provides country allocation recommendations with the goal of enhancing returns of developed market equity portfolios.
- The **Emerging Market Equity Allocator** provides country allocation recommendations with the goal of enhancing returns of emerging market equity portfolios.
- The **Frontier Markets Equity Allocator** provides country allocation recommendations for frontier markets.

Sector Allocation Publications

- The **Global Balancing Act** provides allocations across six developed regions and ten sectors. Here again, the time-tested model incorporates at the sector region and sector level valuation, profitability/growth, risk and sentiment/momentum factors.
- The **U.S. Balancing Act** provides U.S. industry rotation, allocating across 60 U.S. industries based on our investment factors, including valuation, growth, earning quality, risk and momentum.

HGA Interactive Models

- **HGA Interactive Models** can be customized easily to meet clients' needs. Clients can use the models to test investment indicators across countries or sector/industries, change weighting on investment indicators, and create their own models. HGA works closely with clients in the customization.

This publication is provided by Heckman Global Advisors ("HGA"), which is not an independent entity but is a division of DCM Advisors, LLC ("DCM"), a registered investment advisor. The country, sector and industry allocations recommended in any HGA research product are solely those of HGA and may differ from those of other business units of DCM. Nothing contained in any HGA research product constitutes an offer to sell or a solicitation of an offer to buy any security or any interest in DCM vehicle(s). Information contained in any HGA research product has been obtained from sources believed to be reliable, but may not necessarily be complete and its accuracy cannot be guaranteed. The comments contained in any HGA research product are HGA opinions and may not represent the opinions of DCM and are subject to change without notice. All investments are subject to the risk of loss, including the potential for significant loss, and it should not be assumed that any models or opinions incorporated in any HGA research product will be profitable or will equal past performance.
